

Combinatorics Seminar

Thursday, August 28

2:00 pm in Hume 331

Dr. Tristan Denley

Department of Mathematics
The University of Mississippi

The Bela Bash

ABSTRACT

There was a meeting recently in Cambridge to celebrate Bollobas' 60th birthday. There were a number of very good talks presenting many new results and a number of open problems. This talk will be a survey of some of the problems and results that were presented.
