Professor Adam Jones

***Seagulls & Solar Flares:  
Science, Data, and Data Science***

**Echoes, signals, and information—these things form our view of the world around us. In many ways the human experience is simultaneously a cacophony and symphony of data. What can this tell us about ourselves and the universe we live in? In this lighthearted talk, we will look at these and other topics related to both the science and philosophy of data.**
