**Math 264: Unified Calculus & Analytic Geometry IV, Section 4, Spring 2019**

**Syllabus**

**Course Information**
Instructor: Dr. Thái Hoàng Lê.
Office: Hume Hall 337.
Office hours: TTh 1:30P - 2:30P, F 2:00P–3:00P, or by appointment.
Email: leth@olemiss.edu. If you want to contact me by email, make sure to put the name of the class on the subject of your email. If not, your email may be skipped.
Time/Place: TTh 2:30P-3:45P, Hume Hall 203.

**Course Description**
This course is the fourth semester of a four-semester calculus sequence at the University of Mississippi. The course will cover material in chapters 12, 13, and 14 of Briggs, Cochran and Gillett’s *Calculus Early Transcendentals*, in particular Functions of Several Variables, Partial Derivatives, Lagrange Multipliers, Multiple Integrals and Vector Calculus.

**Course Learning Objectives**
Our objective is to enable students understand concepts, develop problem solving skills, apply concepts and theories learned in class to solve problems, prepare for higher level courses, and enhance both critical thinking and analytical reasoning abilities.

**Homework**
Homework assignments will be electronically assigned on MyMathLab (http://www.pearsonmylabandmastering.com/) and due roughly twice a week. See the attached hand-out for additional information. Any late MyMathLab assignments may be submitted by 11:59 pm on Friday, May 3rd, 2018 for half-credit. A number (to be determined later) of lowest homework scores will be dropped. It is extremely important to do homework assignments, since not only do they contribute to your final grade, but they also help you understand the concepts, hone your skills, and prepare you for the exams.

**Attendance**
Attendance is not mandatory but strongly recommended. I won’t reply to questions asking what is announced or covered in classes you miss. It is your responsibility to know what you miss and you must have contacts of some other students in class so that you may inquire them.

**Grading**
1. Your final grade is determined by homework (15%), midterms (60%, each worth 20%), final exam (25%). Your lowest midterm grade will be replaced by your final exam grade, if this results in a better grade.
2. There are no make-up exams.
3. Your letter grade is based on the following scheme: F for below 60, D for 60 or above, C- for 70 or above, C for 73 or above, C+ for 77 or above, B- for 80 or above, B for 83 or above, B+ for 87 or above, A- for 90 or above, A for 93 or above.
**Calculator Policy**

Calculators will NOT be allowed during exams. While I cannot stop you from using a calculator on homework assignments, I encourage you to do the homework without a calculator.

**Additional Policies**

1. Each student is responsible for work missed due to absences. If a test is missed, a grade of zero will be given.

2. Any person who must miss a scheduled test or quiz because of an official university function must reschedule with the instructor to take the test at a time before the test is scheduled to be given. No other rescheduling will be allowed. If asked for by the instructor, official documentation must be provided.

3. A student who wishes to discuss the grading policy, testing policy, or wishes to have a conversation regarding the instructor of the course should make an appointment with the course supervisor in the Department of Mathematics.

4. Any student having three or more final exams scheduled for the same day may arrange with the instructor to take either the 12:00 noon or 7:30p.m. exam at another time. This is the only reason that a final exam may be rescheduled. The student is required to take the final exam at the time scheduled.

**Course Withdrawal**

Withdrawal deadline for the 2019 Spring semester is **Monday, March 4**. After the course withdrawal deadline, courses dropped will be recorded on University records and the W grade will be recorded if the student is not failing the course at the time of withdrawal; otherwise the grade recorded will be F. After the course withdrawal deadline, a student may drop a course only in cases of extreme and unavoidable emergency as determined by the student’s academic dean. Dropping the course after the deadline will not be permitted because of dissatisfaction over an expected grade or because the student has changed his or her major.

**Tutoring**

Free tutoring for all courses through Calculus 4 (115, 120, 121, 123, 125, 261, 262, 263, 264, 267, & 268) will occur in the J.D. Williams Library Commons. The Commons is on the bottom floor of the J.D. Williams Library. No appointment is necessary. A desk worker is stationed near the reference desk and can point you in the direction of a tutor. Tutoring hours are listed below.

- Sunday: 6pm-9pm
- Monday: 10am-9pm
- Tuesday: 10am-9pm
- Wednesday: 10am-9pm
- Thursday: 10am-9pm
- Friday: 10am-2pm

**Academic Needs**

It is the responsibility of any student with a disability who requests a reasonable accommodation to contact the Office of Student Disability Services (915-7128). Any request for extended testing time made through that office must be made prior to the date of the test.

**Academic Honesty**

The following statement is the policy of Department of Mathematics regarding academic honesty: Cheating on any exam, quiz, classwork, or homework, theft of exam questions or possession of exam questions prior to the time for the exam shall all be offenses subject to the appropriate penalties. The penalty for commission of any offense set out above is failure in the course, and subject to the approval of the Chancellor, dismissal or suspension from the university.
**Schedule of lectures**

The following is a tentative schedule of lectures. It is subject to change (depending on our actual pace in class).
