Honors College Math 263 - Section 7, Fall 2019
Meeting Times: TTh 1:00pm - 2:15pm, Hume 112

Instructor: Professor Micah B. Milinovich
Office: Hume 304
Office Hours: Tues., Thurs. 2:30-3:30pm
Email: mbmilino@olemiss.edu

Materials

2. Homework will be primarily assigned electronically using MyMathLab software. It is recommended that you install both the Google Chrome and Firefox web browsers on your computer. That way if the software has a problem in one browser you can switch to the other. If you are having trouble getting the software to work on your computer, either use MyMathLab’s “Help & Support” feature or contact the Pearson representative Crystal Edwards (crystal.edwards@pearson.com).

Course Content and Goals

This course is the third semester of a four-semester calculus sequence at the University of Mississippi. The course will cover material in chapters 8, 9, 10, and 11 of Briggs, Cochran, and Gillett’s Calculus Early Transcendentals, namely: sequences and infinite series, power series and Taylor series, parametric equations and polar coordinates, vectors and vector-valued functions. Our objective is to enable students understand concepts, develop problem solving skills, apply concepts and theories learned in class to solve problems, prepare for higher level courses, and enhance both critical thinking and analytical reasoning abilities.

Tests, Quizzes, Homework

1. There will be three mid-term exams Each test will count 100 points. The test questions will be similar in format to the examples in class and the homework problems. Dates of these exams to be determined.

2. Online homework will be given throughout the semester. Each assignment will be weighted evenly, for a total of 100 points. For MyMathLab (online homework), use Course ID: milinovich19555 to enroll in my grade book.

   See handout for registration instructions for MyMathLab

3. The final examination is comprehensive and will count 200 points. It takes place at noon on Thursday, Dec. 12th.

Very Important

1. If a test is missed for ANY reason, a grade of 0 will be given. There will be absolutely NO make up tests given for ANY reason.

2. The lowest of the four major test grades will be replaced by the exam percentage, if it is higher. Please note that the homework/quiz grade cannot be replaced.

3. Any student who will miss one of the three tests because of an official University function must reschedule and take this test at a time BEFORE the test is scheduled to be given. NO OTHER rescheduling will be allowed.

4. Every student must take the final exam at the time scheduled (unless a student has three final exams on the same day, in which case only the middle exam may be rescheduled). The final exam for Math 263, Section 7 is at noon on Thursday, December 12th.
**Final Grade**

The course grade will be calculated out of a total of 650 points with each Mid-Term being worth 100 points, the Final Exam worth 200 points, Attendance worth 50 points, and the Homework will be worth 100 points (in total). I reserve the right to make the grading scale easier. A grade of C or better in Math 263 is required in order to take Math 264.

**Attendance Policy**

Attendance is **mandatory**. Students are allowed three (3) absences. Ten points are deducted from the Attendance Grade for each absence above the limit. It is the student’s responsibility to make sure his/her attendance record is correct.

**NOTE**: students who do not attend class within the first two weeks of the semester may be dropped from the roll.

**Tutoring**

**TUTORING** is available for Math 263. It will be held in the Library Commons Room Monday through Thursday 10am – 7pm, and Friday 10am – 2pm.

**Cheating**

The following statement is the policy of the Department of Mathematics regarding cheating:

**Offenses**: Cheating on any exam, quiz, homework, work to be completed in class; the use of calculators of any kind during tests or quizzes; theft or attempted theft of exam questions; use of prohibited technology; or possession of exam questions prior to the time for examination; shall all be offenses subject to appropriate penalties.

**Penalties**: The penalty for commission of any offense set out above is failure in the course and, subject to the approval of the Chancellor, dismissal or suspension from the university.

**Withdrawal Deadline for Fall 2019 Semester – Monday, October 7th**

After the course withdrawal deadline, a student may withdraw from a course only in cases of extreme and unavoidable emergencies as determined by the academic dean. Withdrawing from a course after the deadline will not be permitted because of dissatisfaction over an expected grade or because the student has changed his or her major. After the course withdrawal deadline, courses dropped will be recorded on University records and the W grade will be recorded if the student is not failing the course at the time of withdrawal; otherwise, the grade recorded will be F.

**Academic Needs**

It is the responsibility of any student with a disability who requests a reasonable accommodation to contact the Office of Student Disability Services (915-7128). Contact will then be made by that office through the student to the instructor of this class. The instructor will then be happy to work with the student so that a reasonable accommodation of any disability can be made.

**Disability Access and Inclusion**

The University of Mississippi is committed to the creation of inclusive learning environments for all students. If there are aspects of the instruction or design of this course that result in barriers to your full inclusion and participation, or to accurate assessment of your achievement, please contact the course instructor as soon as possible. Barriers may include, but are not necessarily limited to, timed exams and in-class assignments, difficulty with the acquisition of lecture content, inaccessible web content, and the use of non-captioned or non-transcribed video and audio files. If you are approved through SDS, you must log in to your Rebel Access portal at https://sds.olemiss.edu to request approved accommodations. If you are NOT approved through SDS, you must contact Student Disability Services at 662-915-7128 so the office can: 1. determine your eligibility for accommodations, 2. disseminate to your instructors a Faculty Notification Letter, 3. facilitate the removal of barriers, and 4. ensure you have equal access to the same opportunities for success that are available to all students.
